- <Solutions> [1]

This section contains all info related to releases. The visualization of one or more releases can be done using any of these available options:

- Display releases by the status of a release, i.e.:
  - All supported [2] releases (the status of the release is not yet **out-of-support**).
  - All upcoming [3] releases (the status of the release is **Dev** or **Planned**).
  - All unsupported [4] releases (the status of the release is **out-of-support**).
  - All shipping [5] releases (the status of the release is **G.A.** or **Beta**).
  - All available [6] releases (regardless the status of releases).
- Select a product on the overview of available products [7] to get an overview of all releases specific to the selected product.
- Use the release calendar [8] to display releases.
